

e-Yantra Robotics Competition (eYRC - 2016) Task 0 – Model a Terrain

Please find the test.blend file within the folder that contains this Test Setup Read Me file:

- After watching the video tutorials on “**Basics of Blender**” as instructed in ‘**Tutorial on Basics of Blender**’ file, open the test.blend file in Blender.
- Upon opening the file you can see the 3D window as shown in figure below.

- The 3D object which is a Cube has a letter on each of its three sides – T, F and S.
- Set the view mode to orthographic mode.
- Check the object in different views i.e. Top view, Front view, Side view and Quad view.
- The Top view of object must show top side with letter T on it. Similarly, Front view should show the front side with letter F, Side view with letter S and Quad view showing all three views and a User view.
 - Take the screenshot of the screen of each of these four views and make a #<TeamID>_Task-0.zip file containing the four images.
- Upload the zip file on the "Upload" tab of the portal interface.
